SUMMARY

A full-stack web developer who loves to create amazing and interactive Web Applications using the MERN stack. Have a ability in both front-end and back-end development, with mastery in HTML, CSS, JavaScript, React JS, Express, and Node.js. Can craft and deploy responsive web interfaces that look stunning on any device and screen size and design and operate databases that handle and manipulate massive amounts of data. Have a flair for working in agile teams and delivering top-notch solutions that wow the clients and users. Always curious to learn new technologies and enhance my skills.

10th Class

DAV Senior Secondary School Percentage:50%

Jaipur, India

WORK EXPERIENCE

Intern

Aeeron Academy

2023 - Present Jaipur, India

I started my internship by learning about the company's products and services. I worked on a number of projects, including developing new features for the company's website, fixing bugs, and improving the user experience in addition to learning technical skills. I also learned a lot about working in a team environment.
